

Hydraulic Technician/Fitter – Liverpool/Knowsley

Due to business expansion into the UK, Pressure Hydraulics & Controls Limited are looking for a Hydraulic Technician/Fitter. The successful candidate will work out of our UK headquarters based in Liverpool with close links to the M57, M62 & M6. This is an exciting and varied position in a company with decades of expertise in the fluid power industry. Working with a team of experienced individuals you will be part of a company that invests in people, training, and support.

- Job Type: Full Time
- Salary: Based on Experience
- Holidays: 25 days + Bank Holidays
- Company Pension Scheme

MAIN RESPONSIBILITIES:

- Assembly and reassemble of hydraulic systems from the ground up, mechanical components and sub-assemblies of varying size and complexity from specifications
- Installation, maintenance, and repair of hydraulic systems
- Able to read and understand complex hydraulic schematics, engineering drawings and bill of materials
- Provide drawing review and suggestions related to part inspection and testing
- Taking responsibility for the quality of your own work in line with company standards
- Read dials and meters to determine amperage, voltage, electrical output, and input at specific operating temperature to analyse parts performance
- Site visits to fault find and rectify when required
- Assisting/carrying out company operating procedures to a competent technical standard documented in an accurate and timely manner.
- Ensuring compliance, at all times, with all company Security, Environmental and Health & Safety policies and procedures, highlighting any real or potential Health and Safety issues to management in a timely manner and assisting in actioning any decisions made by management
- Any other duties as and when required to maintain efficiency of the department/Company

CANDIDATE REQUIREMENTS:

- 2 Years' Experience as a hydraulic fitter or similar role
- Familiar with different hydraulic hose and fittings
- Experienced in Hydraulic/Mechanical assembly in a manufacturing environment
- Awareness of the safety issues surrounding high pressure machines
- Able to work to tight deadlines

To express an interest in this role please send an email to Jeanette Duggan at: jduggan@phc-uk.co.uk or contact our office on 0151 315 0020.

Closing Date 01st February 2023
